Nutrition MATTERS
Add Integrative Clinical Nutrition to Your Practice
April 10 & 11, 2015 • Marriott Biscayne Bay

Do you want to support your patient’s health as well as treat their disease? This two day conference is designed to bring you the latest in clinical nutrition. You will receive evidenced-based research and treatment protocols that have been shown to reduce side effects of medications and enhance the well-being of the patient. Often patients need a diet tailored to their genetic predisposition, lifestyle and stress levels. Learn from the best in this quickly rising medical approach to nutrition.

Topics relevant to today’s major health issues include:

- The relation between SNPs, nutritional deficiencies and diet
- The Cleveland Clinic model: Motivate to Change
- Toxicity status, chronic disease and treatment protocols
- Multiple applications of Vitamin D for good health
- Dietary recommendations to support patients through cancer treatments
- Diet vs. Diet: Which to use for what, when and with whom
